

September 23, 2024

The Honorable Mark Green
Chairman
Committee on Homeland Security
U.S. House of Representatives
176 Ford House Office Building
Washington, DC 20515

The Honorable Bennie Thompson
Ranking Member
Committee on Homeland Security
U.S. House of Representatives
H2-117 Ford House Office Building
Washington, DC 20515

Dear Chairman Green and Ranking Member Thompson,

We, the undersigned coalition of associations representing trucking, rail, energy, organized labor, agriculture, maritime cargo handling, third-party logistics providers, and other key supply chain stakeholders are grateful that the U.S. House Committee on Homeland Security will consider the *Transportation Security Screening Modernization Act* during the markup scheduled for September 25, 2024, and we appreciate your commitment to advancing this critical legislation. Our coalition strongly supports the amendment in the nature of a substitute (ANS) to the *Transportation Security Screening Modernization Act* that the U.S. Senate Committee on Commerce, Science, and Transportation passed unanimously on July 31, 2024, and urges swift approval of this legislation without additional edits.

The bipartisan ANS to the *Transportation Security Screening Modernization Act* makes the federal credentialing process more accessible and affordable for supply chain workers by harmonizing the security threat assessment programs administered by the Transportation Security Administration that require the same background check. The legislation streamlines the enrollment and renewal processes for the Transportation Worker Identification Credential (TWIC) and Hazardous Materials Endorsement (HME) programs, ultimately reducing hassle and out-of-pocket expenses for workers who need multiple security credentials as a condition of employment.

Federal credentialing procedures should be streamlined, accessible, and affordable so that workers can obtain the documentation they need to do their jobs without navigating needless bureaucracy. The ANS is a long-overdue solution for the supply chain workers who have borne the costs of duplication and inefficiency for far too long, and the *Transportation Security Screening Modernization Act* directs the implementation of streamlined system that supports these hard-working individuals who keep our supply chain running. We thank Chairman Green for his original sponsorship of this legislation and Representatives Garret Graves, Adam Smith, Michael Guest, Dina Titus, and Salud Carbajal for their co-leadership in this effort, and we hope that the U.S. House Committee on Homeland Security will approve the bipartisan ANS on Wednesday. Thank you for your leadership of this Committee and your support on this important issue.

Sincerely,

AATCO
